MultiProtect – At a glance

Why is MultiProtect right for me?

Flexible cover when you need it

MultiProtect provides financial support for a range of specified accidental injuries and UK hospital stays. You can claim for multiple injuries and your policy will continue to protect you in the future.

Great value

Cover starts from as little as £8 to £40 per month, depending on the level of protection you choose. Plus, the cost of your cover won't change when you make a claim or as you get older.

Getting you back on your feet

You will receive UK hospital cover for every 24 hours you spend as an in-patient as the result of an accident. Once you've had your policy for 12 months, you can also claim for time spent in hospital due to sickness.

Cover, whatever your circumstances

We won't ask you any health questions, when you take out the policy. You can take out this policy from 18 years old up to your 60th birthday and can continue cover up until your 70th birthday.

Peace of mind

Accidental death and funeral cover, to provide peace of mind if the worst happens.

Optional cover

MultiProtect also offers extended cover options for families, those with active lifestyles and those who may be at particular risk of certain illnesses. Optional cover is available from just an additional £1 per month, so you can tailor your cover to your circumstances and what's important to you.

Even when life is running smoothly, the unexpected can happen. So, make sure you're prepared with MetLife MultiProtect.

69%

of our claims relating to children are for broken bones (mostly from just kids being kids).* A cash lump sum could allow you to take time off to help get them better.

79%

of our sports-related claims are caused by non-professional rugby injuries.* If you break your leg, your payment could help cover unexpected costs – such as taxis to work while you recover.

21%

of our customers who have made a claim, have done so more than once.* With MultiProtect there is no limit to the number of claims you can make.

*Based on MetLife claims analysis
